

A SERIOUS RUESTION.

General prosperity is only possible country idle, whatever may be the other conditions, or however large the volume of the currency. Industry is at the local and national. For four years or dustrial interests of the country. Facour own labor would find remunerative of action against Turkey and an agree- grandfather was born. He's in the Bible." employment, that the factory and mine, ment among the Powers to act may not and field would thus find consumers at occur again in a score of years. The living prices for their respective pro- eastern crisis, after having become momentarily acute, is likely to again ducts.

And now, with the enactment of the

bill signed by the president last Saturday, the protection for American indus tries by means of duties on imports must be considered settled for years. The business interests will resist all attempts at further tampering with the law as it now stands. Whether it would have been wise to have immedintely taken up the money question and thereby bring on a new agitation before the effect of the new policy had been given time for legitimate results, we will not presend to declare. That the monetary question will be an issue, the next great issue, seems, to us, certain, Still its postponement for the present may have been for the best. The coun try should be given a few months to test its bearings under a protective tariff, which promises much. The duliness and inactivity of the past four years. however, with all its shrinkage of values, are not wholly attributable to overproduction. The surpluses of cheap importations have played their depressing parts. The question of a standard money and the uncertainty and dissatis faction growing out of its agitation has affected every value and reached every conceivable line of business. But next to these two factors comes the immigration question. The product of cheap foreign labor bears no more heavily than the product of the cheap immigrant. It is, in fact, one and the same thing. A protective tariff will keep out the product of the cheap laborer but not the laborer himself. While immigration for the past two years has been comparatively very light, it was only because times have been so hard here ing to the Cleveland policy of free trade, have been more than ordinarily loaded with foreigners seeking labor. which foreigners will per force of their straitened circumstances compete with the home laborer for whatever they can get. This will counteract much of the good of the tariff law and year for feeding and for ready money. also tend to weaken the results of its revenue features.

In short the United States of America | Heaven. has arrived at that stage of her development when it is no longer necessary to coax people to come to our shores, especially that class who bring nothing but expect to gain everything from us. American workmen must be protected generally believed that an idea of a vacaor otherwise our workingmen will be forced down to the same cheap level. Congress, at its next session, should and can only be separated from the gold at take up this question of immigration a great expense. with a view of preventing the old-time promisenous flow of cheap, dependent hack. Many a man has discovered the European immigration.

# THE TURE AND HIS VICTORY.

Another war has ended, another peace has ensued, and still the "Eastern Question" remains unsettled, the sick man of Europe indisposed of. The opportunity was all that could have been Andree has twice broken a leg, twice a Abimelech? were coming out to be slaughasked for by the "Powers," but it has shoulder blade, once an arm and once his tered in the latest style and he turned back gone by unutilized and the Sultan of rose. that as a Christian you have no right to take issue with the words of the Bible? "I haven't!"

"Certainly not." "Well it's too bad about that. We never killed no seventy fellows on one stone out here and we're the wild and woolly west while that's the Holy Land. Take issue with the Bible! That's too bad about that! I'm a Christian, Mr. Martin, but I'm a

## Jay Gould on Honesty.

New York, July 28 .- New evidence has been discovered of the sound moral princi-ples of the late Jay Gould. There was filed this week in the supreme court two large volumes of evidence taken before George McKittick of Brooklyn, as referee, in the suit of Mrs. Sarah Ann Angel against the heirs of Jay Gould. Mrs. Angell will be remembered as the woman who claims a dower interest in Gould's estate, on the ground that she was married to him at Rouse's Point, on Lake Champlain, in 1863, ten years before he married Helen

Miller, the mother of his children. Among the witnesses examined before Referee McKittick was Jay Gould's sister, Mrs. Elizabeth Palen, now living at Ger-mantown, P. She said she was born in 1834 and her brother in 1836, that she re-membered him from the time he was one and a half years old, and and that his name was originally Jason. She had never heard his marriage with the present Mrs. An geil. In the course of her evidence, Mrs. Palen identified a manuscript which was shown her as an essay written by her here."

"Does he live here! Listen at you! Live dorsed: "No. 10 composition, Beachwood here! Why he died before Julius Caesar's Seminary, April 9, 1850." and was as fol-

HONESTY IS THE BEST POLICY By this proposition we mean that to be honest—to think honest and have all our actions honestly performed—is the best way and most accords with the precepts of reason. Honesty is of a self-denying nature; to become honest requires self-denial; it requires that we should not acquaint ourselves too much with the world; that we too much with the world; that we should not associate with those of vul-gar habits; also, that we should obey the warnings of conscience.

the warnings of conscience.

If we are about to perform a dishonest act the warnings of conscience exert their utmost influence to persuade us that it is wrong and we should not do it, and, after we have performed the act, this faithful agent upbraids us for it.

Since no theory of reasoning can be sustained without illustration, it will not be unbecoming for us to cite only

not be unbecoming for us to cite one of the many instances that have oc-curred whose names stand high upon the scroil of fame and whose deeds are recorded on the pages of history. George Washington, the man who "never told a lie" in all his life. In youth he subdued his idle passions, cherished truth, obeyed the teachings of conscience and "never told a lie," an anecdote which is much related and which occurred when he was a of the many instances that have oc

an anecdote which is much related and which occurred when he was a boy. It goes to show his sincerity. Alexander Pope says, "An honest man is the noblest work of God," and we find numerous passages in the Scriptures which have an immediate connection to this.

Summing up the whole, we can not but say, "Honesty is the best policy."
